The gent's salon will provide services include hair cutting, beard trimming, facial service, hair color, hair straightening and manicure/pedicure services.

The capacity utilization during year one is worked out at 80% with 5% increase in subsequent years up to the maximum capacity utilization of 100%.

Total Cost Estimates is **Rs. 2,133,215** with fixed investment **Rs. 1,517,900** and working capital **Rs. 615,315**.

Given the cost assumptions **IRR** and **payback** are **61%** and **2.25 years** respectively.

The most critical considerations or factors for success of the project are: The location and size of salon, hiring of expert barbers, the ambiance of salon must be modern and attractive, service quality, Considering hygiene factor the priority, Quality of products being used, Customer satisfaction/ Customer Relation.

3 INTRODUCTION TO SMEDA

The Small and Medium Enterprises Development Authority (SMEDA) was established in October 1998 with an objective to provide fresh impetus to the economy through development of Small and Medium Enterprises (SMEs).

With a mission "to assist in employment generation and value addition to the national income, through development of the SME sector, by helping increase the number, scale and competitiveness of SMEs", SMEDA has carried out 'sectoral research' to identify policy, access to finance, business development services, strategic initiatives and institutional collaboration and networking initiatives.

Preparation and dissemination of prefeasibility studies in key areas of investment has been a successful hallmark of SME facilitation by SMEDA.

Concurrent to the prefeasibility studies, a broad spectrum of business development services is also offered to the SMEs by SMEDA. These services include identification of experts and consultants and delivery of need based capacity building programs of different types in addition to business guidance through help desk services.

4 PURPOSE OF THE DOCUMENT

The objective of the pre-feasibility study is primarily to facilitate potential entrepreneurs in project identification for investment. The project pre-feasibility may form the basis of an important investment decision and in order to serve this objective, the document/study covers various aspects of project concept development, start-up, and production, marketing, finance and business management.

The purpose of this document is to facilitate potential investors in **Gents Salon** by providing them with a general understanding of the business with the intention of supporting potential investors in crucial investment decisions.

The need to come up with pre-feasibility reports for undocumented or minimally documented sectors attains greater imminence as the research that precedes such reports reveal certain thumb rules; best practices developed by existing enterprises by trial and error, and certain industrial norms that become a guiding source regarding various aspects of business set-up and its successful management.

Apart from carefully studying the whole document one must consider critical aspects provided later on, which form basis of any Investment Decision.

5 BRIEF DESCRIPTION OF PROJECT & PRODUCT

Following are the key parameters of this pre-feasibility study:

- **Technology:** This proposed Gents salon will provide men grooming services to the customers aiming salon hygiene the priority. Appropriate sanitation, sterilization and disinfection are all keys to keeping the salon clean and hygienic.
