## 2 EXECUTIVE SUMMARY

This SME venture entails setting up Footwear Retail outlets in Lahore, the second largest city of Pakistan. The outlet is proposed to cater to the demand of ladies' and children's footwear, belonging to middle to upper middle economic stratum. The focus of the business would be to provide casual, semi-formal and formal, quality footwear at affordable prices. Footwear retail outlet is a project of trading nature; shoes are assumed to be purchased from different subcontract manufacturers and sold at the retail outlet under a brand name.

The demand for footwear is constantly rising and there are a number of local manufacturers in the industry producing quality footwear to cater to the demand of the growing population. Some of these local manufacturers are now focusing on retail side of the business adjusting to the shopping habits of consumers nowadays. In this day and age consumers are becoming increasingly brand conscious and seek value for money products. This trend has led to strong growth in retail chains around Pakistan. Companies are now more aware of the importance of retailing in business. Some of the successfully established ladies' and men's brands of Pakistan are Stylo, Ehsan Chappal Store (ECS), Metro, Soul, Milli shoes, English Boot House (EBH), Servis, Urbansole etc. Other relatively small, but famous designer brands in Lahore and Karachi are, Walkease, Marie Claire, Kumfurt shoes and Panache. These and numerous other local brands have developed a strong presence by opening up multiple outlets in the same city or in various cities.

The total initial project cost for setting up a single outlet in first year is estimated at Rs. 5.75 million. The project is proposed to be financed through $50 \%$ debt and $50 \%$ equity. The project NPV is projected around Rs. 20.42 million, with an IRR of $64 \%$ and payback period of 2.80 years. The legal business status of this project is proposed as 'Sole Proprietorship'.

It is proposed that the project start its operations with opening of one outlet in the first year and would expand business by setting up one additional outlet in the third year. The outlets are planned to be open 12 hours every day. The proposed project assumes to sell around 10,367 pairs in the first year of operation and gradually sell out a maximum of 18,288 pairs in ninth year and by tenth year of operation the brand is projected to sell a total of 35,592 pairs through both the outlets.

## 3 INTRODUCTION TO SMEDA

The Small and Medium Enterprises Development Authority (SMEDA) was established in October 1998 with an objective to provide fresh impetus to the economy through development of Small and Medium Enterprises (SMEs).

With a mission "to assist in employment generation and value addition to the national income, through development of the SME sector, by helping increase the number, scale and competitiveness of SMEs", SMEDA has carried out 'sectoral research' to identify policy, access to finance, business development services, strategic initiatives and institutional collaboration and networking initiatives.

Preparation and dissemination of prefeasibility studies in key areas of investment has been a successful hallmark of SME facilitation by SMEDA.

Concurrent to the prefeasibility studies, a broad spectrum of business development services is also offered to the SMEs by SMEDA. These services include identification of experts and consultants and delivery of need based capacity building programs of different types in addition to business guidance through help desk services.

## 4 PURPOSE OF THE DOCUMENT

The objective of the pre-feasibility study is primarily to facilitate potential entrepreneurs in project identification for investment. The project pre-feasibility may form the basis of an important investment decision and in order to serve this objective, the document/study covers various aspects of project concept development, start-up, and production, marketing, finance and business management.

The purpose of this document is to facilitate potential investors in Footwear Retail Outlet by providing them with a general understanding of the business with the intention of supporting potential investors in crucial investment decisions.

The need to come up with pre-feasibility reports for undocumented or minimally documented sectors attains greater imminence as the research that precedes such reports reveal certain thumb rules; best practices developed by existing enterprises by trial and error, and certain industrial norms that become a guiding source regarding various aspects of business set-up and it's successful management.

Apart from carefully studying the whole document one must consider critical aspects provided later on, which form basis of any Investment Decision.

## 5 BRIEF DESCRIPTION OF PROJECT \& PRODUCT

This document provides details for setting up a Footwear Retail Outlet selling ladies' and children's shoes. A total of two outlets are proposed; the project would start with a single outlet and opening of one additional outlet is proposed in third year.

The proposed business involves purchase of ladies' and children's shoes from a local manufacturer and selling it through retail outlets, under a brand name, in any big city of Pakistan. The shop is assumed to operate for 12 hours on weekdays.

### 5.1 Proposed Product Mix

The product mix would include ladies' and children's shoes in all the sizes. This product mix is divided into further categories: casual, semi-formal and formal footwear which include pumps, heels, coat shoes, sandals, slippers etc. made of leather and other materials. The three categories among ladies' and children's shoes are further classified by three different proposed selling prices, ranging between Rs. 1,000 - Rs. 3,000 for ladies' shoes and Rs. 1,000-Rs. 2,000 for children's shoes.

### 5.2 Installed and Operational Capacities

The proposed project assumes to sell around 10,367 pairs in the first year of operation and gradually sell out a maximum of 35,592 pairs out of two outlets. However, planned venture is estimated to operate at $55 \%$ capacity in the initial year and with $5 \%$ gradual increase will attain the maximum capacity utilization of 95\%.

## 6 CRITICAL FACTORS

The most critical considerations / factors for the success of this project are as follows:
$\Rightarrow$ Development of attractive designs and good quality shoes at competitive prices.
$\Rightarrow$ Develop strong linkages with suppliers for obtaining good quality products at competitive prices. Networking with shoes wholesaler / retailers for the sale of the product.
$\Rightarrow$ Efficient management of stock to keep inventory cost at the minimum.
$\Rightarrow$ Knowledge about the latest market trends.
$\Rightarrow$ Induction of trained sales personnel for efficient customer handling.
$\Rightarrow$ Quality standards should be strictly followed.
$\Rightarrow$ Strong presence in the domestic market.
$\Rightarrow$ Increasing competition from Chinese products and strong competition with similar type of manufacturers.

## 7 GEOGRAPHICAL POTENTIAL FOR INVESTMENT

Lahore is the footwear centre of the country, followed by Karachi, Faisalabad, Multan, Peshawar, Hyderabad, Sahiwal, Gujranwala and Rawalpindi. All the shoe manufacturing units and numerous shoe stores are established in these cities. Therefore, selecting any of the above cities would be a profitable option for setting up a footwear retail outlet.

## 8 POTENTIAL TARGET CUSTOMERS / MARKETS

Target customer for the proposed project would be children and females of ages 14 years and above, belonging to middle and upper economic stratum. The middle and upper middle family income groups dominate the overall population in Pakistan. This phenomenon provides an ample opportunity for the investment in this sector.

## 9 PROJECT COST SUMMARY

A detailed financial model has been developed to analyze the commercial viability of Footwear Retail Outlet. Various costs and revenue related assumptions along with results of the analysis are outlined in this section.

The projected Income Statement, Cash Flow Statement and Balance Sheet are also attached as Annexure

### 9.1 Project Economics

All the figures in this financial model have been calculated. The following table shows Internal Rate of Return, Payback Period and Net Present Value of the project:

Table 1: Project Economics

## Description

Internal Rate of Return (IRR)
Payback Period (Yrs.)
Net Present Value (Rs.)

## Details

64\% 2.80

20,424,674

### 9.2 Project Financing

Following table provides details of the equity required and variables related to bank loan:

Table 2: Project Financing

## Description

Total Equity (50\%)
Rs. 2,876,175
Bank Loan (50\%) Rs. 2,876,175

Markup to the Borrower (\%age / annum) 14\%
Tenure of the Loan (Years)

### 9.3 Project Cost

Following fixed and working capital requirements have been identified for operations of the proposed business.

Table 3: Project Cost

| Description | Amount Rs. |
| :--- | ---: |
| Capital Cost |  |
| Furniture and Fixture | $2,020,500$ |
| Office Equipment | 239,000 |
| Pre-operating Cost | 218,000 |
| Training Cost | 50,000 |
| Total Capital Cost | $2,527,500$ |
| Working Capital |  |
| Repair Material Inventory |  |
| Upfront Building Rent | 900,000 |
| Opening Inventory | $1,168,344$ |
| Cash | $1,154,600$ |
| Total Working Capital | $\mathbf{3 , 2 2 4 , 8 5 1}$ |
| Total Project Cost | $\mathbf{5 , 7 5 2 , 3 5 0}$ |

### 9.4 Space Requirement

For the proposed project, in the first year a 2 -storey building, built on 900 sq feet area on each floor is assumed to be acquired on rental basis. The rent in this prefeasibility is taken to be about Rs. 150,000/- per month. Following table shows the total area requirements for the admin office and outlet. One additional 1,500 sq feet shop on different location would be acquired on rent in the third year

Table 4: Space Requirement
Room
Display hall (ground floor) Space Required. (Sq. ft)
Admin office (first floor) ..... 320
Washrooms ..... 60
Raw material store (first floor) ..... 520
Total area ..... 1,800

### 9.5 Furniture \& Fixtures Requirement

Details of the furniture and fixture required for the project are given below:
Table 5: Furniture \& Fixture Requirement Year-1

| Items | Qty | Unit Cost (Rs.) | Total Cost (Rs.) |
| :--- | :---: | ---: | ---: |
| Furniture |  |  |  |
| Executive Chairs | 1 | 10,000 | 10,000 |

| Security camera | 2 | 2,000 | 4,000 |
| Telephone Sets |  |  | $\mathbf{2 3 9 , 0 0 0}$ |
| Total Cost |  |  |  |

Table 8: Office Equipment Requirement Year-3

| Items | Qty | Unit Cost (Rs.) | Total Cost (Rs.) |
| :--- | :---: | ---: | ---: |
| Computers | 2 | 36,300 | 72,600 |
| UPS | 1 | 12,100 | 24,200 |
| Printers | 1 | 12,100 | 12,100 |
| Bar code reader | 4 | 18,150 | 18,150 |
| Security camera | 2 | 24,200 | 96,800 |
| Telephone Sets | 2,420 | 4,840 |  |
| Total Cost |  |  | $\mathbf{2 2 8 , 6 9 0}$ |

### 9.7 Human Resource Requirement

In order to run operations of Footwear Retail Outlet smoothly, details of human resources required along with monthly salary are recommended as under:

Table 9: Human Resource Requirment

| Employees | No. | Salary/Month (Rs.) | Annual Salary (Rs.) |
| :--- | :---: | ---: | ---: |
| Administration Staff |  |  |  |
| Store Manager | 1 | 30,000 | 360,000 |
| Purchaser | 1 | 20,000 | 240,000 |
| Accountant | 1 | 20,000 | 240,000 |

| Sales men | 4 | 18,000 | 864,000 |
| :--- | :--- | :--- | ---: |
| Guard | 2 | 14,000 | 336,000 |
| Helper | 3 | 15,000 | 540,000 |
| Total |  |  | $\mathbf{2 , 5 8 0 , 0 0 0}$ |

### 9.8 Utilities and Other Costs

An essential cost to be borne by the project is the cost of electricity. The direct electricity expenses are estimated to be around Rs. 667,044 annually. Furthermore, promotional expense being essential for marketing of Footwear Retail Outlet is estimated as Rs. 300,000 annually.

### 9.9 Revenue Generation

Based on the $55 \%$ capacity utilization, sales revenue during the first year of operations is estimated as under:

Table 10: Revenue Generation Year 1

| Shoes | Percentage | Quantity | Sale Price | Total Sales |
| :--- | :--- | :--- | :--- | :--- |

## Ladies Shoes

| Pair A | $20 \%$ | 1,452 | 3,000 | $4,356,000$ |
| :--- | :--- | :--- | :--- | :--- | :--- |
| Pair B | $50 \%$ | 3,629 | 2,000 | $7,258,000$ |
| Pair C | $30 \%$ | 2,178 | 1,000 | $2,178,000$ |

## Children Shoes

| Pair A | 20\% | 623 | 2,000 | $1,246,000$ |
| :--- | :--- | ---: | ---: | ---: | ---: |
| Pair B | $50 \%$ | 1,556 | 1,500 | $2,334,000$ |
| Pair C | $30 \%$ | 934 | 1,000 | 934,000 |
| Revenue Generation |  |  |  | $\mathbf{1 8 , 3 0 6 , 0 0 0}$ |

Table 11: Cost of Goods Calculation

## 13 KEY ASSUMPTIONS

### 13.1 Operating Cost Assumptions

| Description | Details |
| :--- | ---: |
| Transport Rental | $2.5 \%$ of Purchasing Expense |
| Promotional Expenses | Rs. 25,000 per Month |\(\left|\begin{array}{rr}5 \% <br>

\hline Operating costs growth rate \& Rs. 10,000 per Month <br>

\hline Communication expense \& Rs. 20,000 per Month\end{array}\right|\)| Sales Commission |  |
| :--- | :--- |
| Office expenses (stationary, entertainment, <br> janitorial services, etc.) | Rs. 50,000 per Annum |
| Professional fees (legal, audit, consultants, etc.) |  |
| Furniture \& fixtures deprecation |  |
| Inflation Growth Rate |  |
| Electricity Price Growth Rate |  |
| Salaries Growth Rate |  |

### 13.2 Revenue Assumptions

| Description | Details |
| :--- | ---: |
| Sales Price Growth Rate | $5 \%$ |
| Starting Capacity Utilization | $55 \%$ |
| Capacity Growth Rate | $5 \%$ |
| Maximum Capacity Utilization | $95 \%$ |

### 13.3 Financial Assumptions

| Description | Details |
| :--- | ---: |
| Project Life (Years) | 10 |
| Debt: Equity | $50: 50$ |
| Interest rate on long term debt | $14 \%$ |
