## 1 DISCLAIMER

This information memorandum is to introduce the subject matter and provide a general idea and information on the said matter. Although, the material included in this document is based on data/information gathered from various reliable sources; however, it is based upon certain assumptions, which may differ from case to case. The information has been provided on as is where is basis without any warranties or assertions as to the correctness or soundness thereof. Although, due care and diligence has been taken to compile this document, the contained information may vary due to any change in any of the concerned factors, and the actual results may differ substantially from the presented information. SMEDA, its employees or agents do not assume any liability for any financial or other loss resulting from this memorandum in consequence of undertaking this activity. The contained information does not preclude any further professional advice. The prospective user of this memorandum is encouraged to carry out additional diligence and gather any information which is necessary for making an informed decision, including taking professional advice from a qualified consultant/technical expert before taking any decision to act upon the information.

For more information on services offered by SMEDA, please contact our website: [www.smeda.org.pk](http://www.smeda.org.pk)

## 2 EXECUTIVE SUMMARY

Genset repairing workshop is proposed to be located at big cities across the country. Ideally, Karachi, Hyderabad, Sukkur, Rawalpindi-Islamabad, Gujranwala, Faisalabad, Lahore and Peshawar could be some of the good cities with major population to start this business. The document discusses the detailed aspects of setting up genset repairing workshop for domestic generator ranges from 01 kVA to 10 kVA. Considering the county's energy crises and load shedding, generator repair services are considered to be a profitable business depending upon the location chosen to setup this business will determine how profitable the business can be. The repairing service includes service & tuning of generator, minor repairs, major repairs and complete engine overhaul.

Total investment of **Rs. 593,987** will be required for the project. **Rs. 230,000** will be the capital expenditure, which include buying of Technical equipment or tools and furniture for setting up workshop. Additionally, a working capital amount of **Rs. 363,987** is required. A total of **06 staff** members will constitute the workforce to handle the operations, excluding the CEO who will be the owner of the business.

With estimated 205 generators of different nature of repairs per month in first year using initial capacity utilization of 65%, revenue of **Rs.2,063,100** is earned in first year. The project has a payback period of **3.20 years**, **IRR of 48%** and an **NPV of Rs. 940,285**.

The most critical considerations or factors for success of the project are:

- Most significant consideration(s)
  - Quick and quality repair & maintenance services.
  - Technical know-how and relevant experience of entrepreneur.
  - Availability of skilled labour having technical knowledge.
  - Suitable location for workshop with maximum exposure to customers
- Equally important factor(s)
  - Good customer service and emphasis on customer's feed back
  - Efficient marketing and promotional strategy

### 3 INTRODUCTION TO SMEDA

The Small and Medium Enterprises Development Authority (SMEDA) was established in October 1998 with an objective to provide fresh impetus to the economy through development of Small and Medium Enterprises (SMEs).

With a mission "to assist in employment generation and value addition to the national income, through development of the SME sector, by helping increase the number, scale and competitiveness of SMEs", SMEDA has carried out 'sectoral research' to identify policy, access to finance, business development services, strategic initiatives and institutional collaboration and networking initiatives.

Preparation and dissemination of prefeasibility studies in key areas of investment has been a successful hallmark of SME facilitation by SMEDA.

Concurrent to the prefeasibility studies, a broad spectrum of business development services is also offered to the SMEs by SMEDA. These services include identification of experts and consultants and delivery of need based capacity building programs of different types in addition to business guidance through help desk services.

### 4 PURPOSE OF THE DOCUMENT

The objective of the pre-feasibility study is primarily to facilitate potential entrepreneurs in project identification for investment. The project pre-feasibility may form the basis of an important investment decision and in order to serve this objective, the document/study covers various aspects of project concept development, start-up, and production, marketing, finance and business management.

The purpose of this document is to facilitate potential investors in **Genset Repairing Workshop** by providing them with a general understanding of the business with the intention of supporting potential investors in crucial investment decisions.

The need to come up with pre-feasibility reports for undocumented or minimally documented sectors attains greater imminence as the research that precedes such reports reveal certain thumb rules; best practices developed by existing enterprises by trial and error, and certain industrial norms that become a guiding source regarding various aspects of business set-up and it's successful management.

Apart from carefully studying the whole document one must consider critical aspects provided later on, which form basis of any Investment Decision.

## 5 BRIEF DESCRIPTION OF PROJECT & PRODUCT

Since the demand for electricity in the country has been increasing due to industrial development and population growth but the supply is far less to meet the demand, resultantly it has turned into the electricity crisis. This demand and supply gap not only increases the prices for electricity but also increases the demand for alternate electricity resources, for industrial and domestic consumers.

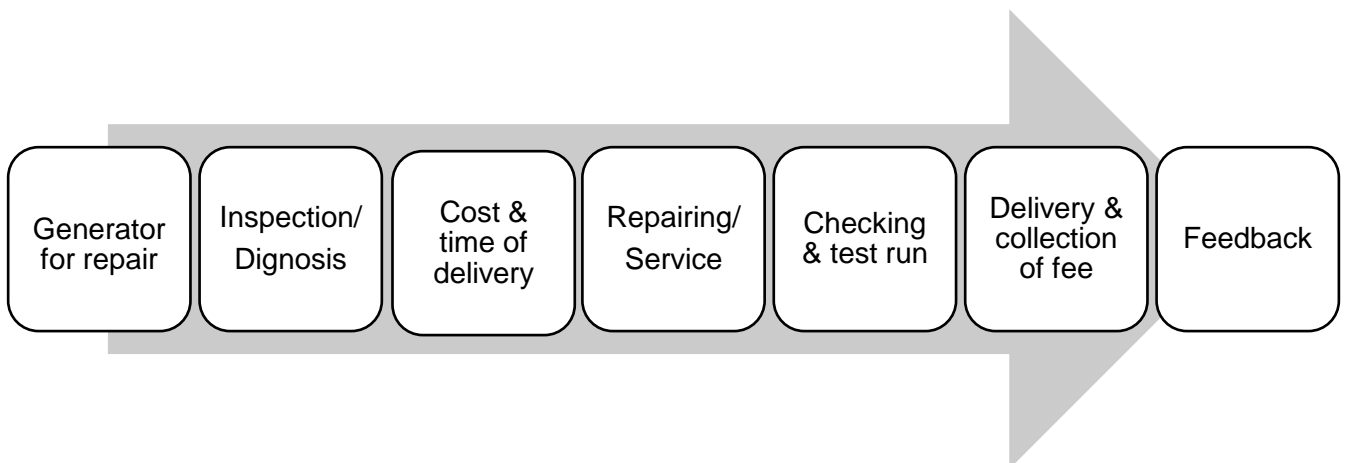

Most of the households uses the electricity generators to fulfill their electricity need compare to the other alternatives. Use of electricity generators also creates the demand for its repairing. There are number of shops for generator repairing already in the market to cater customer demand but still there is market gap to fulfill the demand. With the technical expertise and superior quality services will cater the market demand.

The Genset Repair Workshop business is a viable business provided that it is operated with a good business acumen that involves having a thorough knowledge and experience of the repair and service operations and also managing the jobs with the right type of skilled manpower. When these factors combine with good customer relationship management and effective business development skills, the business is expected to give considerable profits which are expected to grow over the years.

Following key parameters must be addressed as per pre-feasibility study under preparation

- **Technology:** Genset repairing workshop will required technical mechanics with technical tools and equipment necessary for the repairing services. The workshop will be opened in a rented shop.
- **Location:** The workshop would be located where generated spare part shops and other similar services workshops are located
- **Product:** A high quality repairing services will be provide to the customers that includes tuning , minor repairing, major repairing and whole engine
- **Target Market:** The target audience are household audience who uses generator at their home, shops and small offices.
- **Employment Generation:** The proposed project will provide direct employment to 06 persons excluding owner. Financial analysis shows the unit shall be profitable from the very first year of operation

## 5.1 Production Process Flow

Each step in the process flow is critical and should be dealt professionally to give the best overall service to the customer. Details relating to each step in the process are discussed below:

**Generator for repair:** Customer bring his/her generator at the workshop and state the initial problem he or she is facing. Here home service can also be provided for initial diagnostic and minor services.

**Inspection/Diagnosis:** Mechanic at the workshop check the genset and share the diagnostic result with the customer. A list of spare parts for repair or replacement is also shared with the customer.

**Cost and time of delivery:** As per the initial diagnostic the customer is issued a cost estimate along with estimated time of delivery. Advance fee in respect to new parts to be replaced can be charged from the customer.

**Repairing/Service:** The Job is allocated to the respective mechanic and the repair/service process starts.

**Testing:** It is mandatory to thoroughly check and test run the generator after the job is done before handing it over to the customer.

**Delivery and collection of service fee:** Customer is informed to collect the repaired genset and upon satisfaction Invoice is issued and remaining service fee is collected.

**Feedback:** Getting feedback of the customers is very important for the long-term success of the business. It will help develop good relations with customers for future business and getting referrals as well. The feedback will also help improve the service further by positively acting upon client's concerns.

## 5.2 Installed and Operational Capacities

The operational capacity is limited to repairing up to 205 gensets for various type of repair and services in a month using 65% of initial capacity utilization with 03% capacity utilization growth rate annually.

## 6 CRITICAL FACTORS

The main critical success factors that affect the decision to invest in the proposed business setup are:

- Quick and quality repair & maintenance services.
- Technical know-how and relevant experience of entrepreneur/investor.
- Availability of skilled labour having technical knowledge.
- Suitable location for workshop with maximum exposure to customers.

## 7 GEOGRAPHICAL POTENTIAL FOR INVESTMENT

Genset repairing workshop is proposed to be located at big cities across the country. Ideally, Karachi, Hyderabad, Dadu, Sukkur, Rawalpindi-Islamabad, Faisalabad, Lahore and Peshawar could be some of the good locations to start this business. Besides this big city this business can also be viable where the population of cities is huge and demand for generators repairing is high.

## 8 POTENTIAL TARGET CUSTOMERS / MARKETS

Pakistan has over 185 million of population with growing income and changing life style. The prevailing energy crisis has prompted mass population to use alternative sources to cater their electricity needs. Due to long hours of electricity breakdown mostly people decide on to purchase generators instead of UPS and inverters. Generator repair workshop can be set-up in any major city with significant population such as Karachi, Hyderabad, Lahore, Rawalpindi, Islamabad, Multan, Peshawar and Quetta. This business can also be done in all small second tier towns in addition to suburban towns of large cities.

## 9 PROJECT COST SUMMARY

A detailed financial model has been developed to analyze the commercial viability of this project. Various costs and revenue related assumptions along with results of the analysis are outlined in this section.

## 9.1 Project Economics

All the figures in this financial model have been calculated for estimated sales of Rs. 2.06 million in the year one. The capacity utilization during year one is worked out at 65% with 03% increase in subsequent years up to the maximum capacity utilization of 85%.

The following table shows internal rate of return, payback period and net present value of the proposed venture:

**Table 9.1: Project Economics**

Description	Details
Internal Rate of Return (IRR)	48%
Payback Period (yrs.)	3.20
Net Present Value (Rs.)	940,285

## 9.2 Project Financing

Following table provides details of the equity required:

**Table 9.2: Project Financing**

Description	Details
Total Equity (100%)	Rs 593,987
Debt	Nil

## 9.3 Project Cost

Following fixed and working capital requirements have been identified for operations of the proposed business:

**Table 9.3: Project Cost**

Description	Amount Rs.
<b>Capital Cost</b>	
Plant and Machinery	65,000
Furniture & Fixture	51,500

Pre-operating Cost	113,500
<b>Total Capital Cost</b>	<b>230,000</b>
<b>Working Capital</b>	
Raw Material Inventory	23,985
Up-front Building Rent	240,002
Cash	100,000
<b>Total Working Capital</b>	<b>363,987</b>
<b>Total Project Cost</b>	<b>593,987</b>

#### 9.4 Space Requirement

The space requirement for the proposed Genset repairing workshop is estimated to be 180 sq. ft. considering facilities including table space for owner and working area for repair and services. Details of space requirement and cost related to land & building is given below:

**Table 9.4: Space Requirement**

Description	Estimated Area (Sq.ft.)	Monthly rent (Rs.)
Table Space	36	20,000
Generator repairing area	144	
<b>Total</b>	<b>180</b>	<b>20,000</b>

#### 9.5 Machinery & Equipment Requirement

The details of equipment and tools for the proposed project are stated below:

**Table 9.5: Machinery & Equipment**

Description	Quantity	Total Cost (Rs.)
Ring Spanner Set	03	
Open End Spanner Set	03	
T-Spanner Set	03	
Plier	03	

Cutter Plier	03	
Nose Plier	03	
Goti (socket) Set	03	
Screw driver Set (Standard Tip)	03	
Screw driver Set (Round Tip)	03	
Hammer Small	03	
Hammer Large	03	
Filler	03	
Brush	05	
Tagari	05	
Tool Container	03	
Ampere Meter	03	
Avo Meter	03	
L- Key	03	
<b>Total</b>		<b>65,000</b>

## 9.6 Furniture & Fixtures Requirement

Details of the furniture and fixture required for the project are given below:

**Table 9.6: Furniture & Fixture**

Description	Quantity	Unit Cost (Rs.)	Total Cost (Rs.)
Wooden Table	02	15,000	30,000
Bench	01	2,500	2,500
Wooden Stool	04	2,000	8,000
Ceiling Fan	02	5,000	10,000

Saver Bulb	05	200	1,000
<b>Total</b>			<b>51,500</b>

## 9.7 Human Resource Requirement

In order to run operations of Genset repairing workshop smoothly, details of human resources required along with number of employees and monthly salary are recommended as under:

**Table 9.7: Human Resource Requirement**

Description	No. of Employees	Monthly Salary per person (Rs)	Monthly Salary (Rs)
Head Mechanic	01	25,000	25,000
Assistant Mechanic	03	18,000	54,000
Helper	03	17,500	52,500
<b>Total</b>	<b>06</b>		<b>131,500</b>

## 9.8 Utilities and other costs

An essential cost to be borne by the project is the cost of electricity and gas. The electricity expenses are estimated to be around Rs.3,312 per month. Furthermore, Travel expenses are being essential for Generator repairing services at home or office and estimated as 07% of administrative expenses.

## 9.9 Revenue Generation

Based on the capacity utilization of 65% revenue during the first year of operations is estimated as under:

**Table 9.9: Revenue Generation – Monthly**

Description	Service charges / unit (Rs.)	Units Repaired in a month*	Revenue (Rs.)
Tuning & Service	500	78	39,000

Minor Repair	500	78	39,000
Major Repairs	3,500	39	136,500
Engine overhaul	5,000	10	50,000
<b>Total</b>		<b>205</b>	<b>264,500</b>

\* Estimated units to be repaired during a month

## 10 CONTACT DETAILS

In order to facilitate potential investors, contact details of private sector service Providers relevant to the proposed project are mentioned below.

### 10.1 Tools & equipment suppliers

#### Machinery Supplier - 1

<b>Name of Supplier /Organization</b>	Adamji Waliji & Sons
<b>Address</b>	380, Nana Bhai Center, Saddar, Hyderabad
<b>Phone</b>	0222-787084

### 10.2 Technical Experts / Consultants

#### Technical Experts / Consultants - 1

<b>Name of Expert /Organization</b>	Muhammad Aslam
<b>Address</b>	Haji Shah Chowk Bohri Bazar Saddar, Karachi
<b>Phone</b>	0333-2643788 – 03003048852

## 13 KEY ASSUMPTIONS

### 13.1 Operating Cost Assumptions

No. of Working Days in One Year	312
No. of Working Hours in One Day	08

### 13.2 Production Cost Assumptions

Starting Service Capacity Utilization	65%
Maximum Service Capacity Utilization	85%
Service Capacity Utilization Growth Rate / Yr.	03%

### 13.3 Revenue Assumptions

Average Service Fee Charged for various services	Rs.1290
Sale Price Growth Rate	10%

### 13.4 Financial Assumptions

Debt	0%
Equity	100%

### 13.5 Expense Assumptions

Description	Cost / Rate
Cost of Goods Sold Growth Rate	08%
